

MARKO PLESLIĆ

FRONTEND DEVELOPER

Zagreb, Croatia | marko.pleslic@gmail.com | linkedin.com/in/marko-pleslic-532a03228

SUMMARY

Frontend Developer with 4 years of experience building web and mobile applications. Currently working in Angular and TypeScript on an internal back-office platform, using RxJS for reactive data flows and NgRx for application state. Strong React and React Native background, and comfortable working across the full stack with Node.js, Express and relational databases when a project calls for it. Fluent in English and experienced in Scrum teams. MSc in Software Engineering.

SKILLS

Languages	TypeScript, JavaScript, SQL, HTML, CSS
Frontend	Angular, RxJS, NgRx, React, React Native, Redux, Tailwind CSS, Material UI
Backend & Data	Node.js, Express, REST APIs, relational databases
Tools & Practices	Git, GitLab, CI/CD, Agile / Scrum, code review
Other	WordPress (custom themes), Symfony

EXPERIENCE

Frontend Developer — PlayNirvana Group, Zagreb Oct 2024 – Present

- Develop and maintain the company's internal back-office application in Angular and TypeScript.
- Build reactive data flows with RxJS and manage application state with NgRx, keeping complex multi-view screens consistent and predictable.
- Integrate the frontend with REST APIs, covering authentication, role-based access, filtering and paginated data sets.
- Develop reusable components and shared modules to reduce duplication across feature modules.
- Work in a Scrum team with peer code review and CI/CD pipelines.

Frontend Developer — Krik Studio Jul 2023 – Oct 2024

- Delivered client web and mobile applications using React, React Native, Tailwind CSS and Material UI.
- Worked across the full stack on Node.js and Express services, implementing REST endpoints and wiring them into the frontend.
- Built custom WordPress themes from scratch to client design specifications.
- Contributed to Symfony-based backends alongside frontend delivery.
- Took features from design handoff through to production release in a small, fast-moving team.

Frontend Developer — CROZ, Zagreb Jul 2022 – Jul 2023

- Developed an internal web application for a large telecommunications company using React, Redux and Material UI, integrating with existing enterprise systems.
- Built a cross-platform mobile application for a sports club with React Native and Tailwind CSS.
- Worked in an agile team using GitLab for version control and code review.
